

Genesee Library Director Report for October 18,2023

Manley Grant: We received a grant for \$2,500.00. This grant is for 6 new bookshelves with castors and program supplies for next summer.

We are working with Paul to talk about the dimensions of the new shelves and how we can expand our collection even more.

Programs have been going well. We are looking at starting programs for January, February, and March soon.

We are implementing a new photo makerspace to the library and are excited to offer it to the community members. This will be a space where teens can film, and families can take photos.

All items have been ordered and we are excited to kick it off.

We have sealed the building for the winter things are going well.
